

Jennifer Hennessey
WDOE

Jennifer Hennessey is the ocean policy lead for Washington State's coastal program at the Washington Department of Ecology. In this role, she analyzes policies and coordinates a team of state agencies focused on improving ocean and coastal management for Washington's Pacific Coast. She also assists the Governor's office in coordinating with coastal tribes on ocean policy issues, in implementing the West Coast Governors Alliance and by serving as staff for the Washington Coastal Marine Advisory Council. Ms. Hennessey is currently lead coordinator for the state's marine spatial planning effort on Washington's Pacific Coast. She has authored reports on ocean policy and has participated in a variety of state, regional and national work groups and partnerships across a range of ocean and coastal policy issues, such as regional ocean governance, renewable energy, regional sediment management, seafloor mapping, and climate change. Ms. Hennessey holds a M.S. in marine resource management from Oregon State University and a B.A. in biology-environmental studies from Whitman College.
